

7:30 am	REGISTRATION	
8:00 to 8:30 am	BREAKFAST	
	WELCOME AND LAND ACKNOWLEDGEMENT	
	<p>PLENARY: Targeted Rapid PrEP: Impact and Lessons Learned New South Wales was the first state in Australia to trial PrEP at a large scale. The high-level, targeted, rapid roll-out of PrEP led to a 35% decline in state-wide HIV diagnoses in MSM, and a 44% decline in early HIV infections in MSM in less than one year. Why was this approach so successful? What were the key take away messages? What can Ontario learn from Australia’s experience?</p>	
	<p>CONCURRENT SESSIONS</p> <ul style="list-style-type: none"> • PrEP Practice and Policy • Slowing Rising Rates of STIs • Understanding Risk in Newcomer and ACB Communities • Improving Engagement, Retention and Adherence – (Session I) 	
	<p>PLENARY: Plenary: Talking U=U Undetectable = Untransmissible is one of the most positive messages people living with HIV can hear. It reduces the stigma associated with HIV and provides motivation to stay on treatment to keep both themselves and their sexual partners healthy. Yet many clinicians still struggle with the best way to deliver this message. This plenary describes the highly successful “Can’t Pass It On” Campaign in the UK and explores the challenges of talking U=U with both people living with HIV and people at risk.</p>	
12:00 to 1:00 pm	<p>LUNCH PLENARY: The Future of Antiretroviral Therapy <i>ART regimens have improved significantly over the years. What’s next? Will new regimens and new delivery mechanisms improve care and adherence?</i></p>	
	<p>WORKSHOP Picturing Participation</p>	<p>WORKSHOP Linkages to care</p> <p>CONCURRENT SESSIONS</p> <ul style="list-style-type: none"> • PrEP Knowledge and Impact • Are Drug Costs a Barrier to HIV Care? • Care Transitions: Challenges and Opportunities <p>CONCURRENT SESSIONS</p> <ul style="list-style-type: none"> • Strong Medicine: an educational video developed with Indigenous people to promote testing and treatment. • Pregnancy and HIV
	POSTER SESSION	
	<p>CONCURRENT SESSIONS</p> <ul style="list-style-type: none"> • Population-specific Approaches to Prevention and Care • Improving Engagement, Retention and Adherence – (Session II) • Testing Innovations 	
	PLENARY: Innovations in Testing	
5:30 to 7:00 pm	NETWORKING RECEPTION	

7:30 am	REGISTRATION & BREAKFAST					
	WELCOME PLENARY: HIV and Loneliness					
	PLENARY: Opiates and Pain Management					
	PLENARY: Adverse Childhood Events and Trauma-informed Care					
	WORKSHOPS <ul style="list-style-type: none"> • Gay Men’s Mental Health Workshop • Indigenous Mental Health Workshop • African, Caribbean and Black Mental Health Workshop 					
12:00 to 1:00 pm	LUNCH PLENARY: Treating HIV and Cancer					
	Men and Meth A growing number of gay men are using crystal meth for sex. What’s the impact on their health, lives and adherence to ART and PrEP? What are the challenges of dealing with a meth addiction? What about effective treatments?	Findings and Implications of the MSAFIRI Study	PHARMACY DAY	PRIMARY CARE DAY		
	CONCURRENT SESSIONS <ul style="list-style-type: none"> • Men and Meth: A conversation • Trauma-Informed Care • HIV and Substance Use 					
	CONCURRENT SESSIONS <ul style="list-style-type: none"> • Building Resilient Communities • Training the Next Generation • Gay Men’s Mental Health • African, Caribbean and Black: Intersection of Gender and Masculinity 					
	PLENARY: Structural Racism and Stigma in Healthcare People living with HIV continue to face stigma. Some due to the illness itself, some due to racism and some due to drug use. Many experience stigma in their contacts with the health and other service systems. What are effective ways to reduce bias, racism and stigma in care settings?					
4:30	CLOSING REMARKS					

Endgame 3: Breakthrough Initiatives takes place from December 6 to 7, 2018 in Toronto. For more information and to register please visit: <https://ohtn2018.exordo.com/>
