

## EPIDEMIOLOGIST

**REPORTS TO:** Senior Lead, Epidemiology & Surveillance  
**STATUS:** Permanent, full-time (35 hours/week)  
**HIRING RANGE:** \$53,000-\$65,000  
**LOCATION:** 1300 Yonge Street, Toronto, ON

### ABOUT US

The Ontario HIV Treatment Network (OHTN), established in 1998, is a nonprofit organization with a mission to improve the health and lives of people living with and at risk of HIV by using data and evidence to drive change. We work with three main types of partners -- 1) testing programs and clinics; 2) AIDS service and other community-based organizations; and 3) policy and system leaders within and beyond the health sector – to support the implementation of the provincial HIV strategy, priorities, and directions

### ABOUT THE ROLE

This position reports to the Senior Lead, Epidemiology & Surveillance and carries out epidemiologic research and reporting activities, including: reviewing epidemiologic literature; developing research protocols and analysis plans; conducting research and analysis; summarizing and interpreting information; preparation of reports and manuscripts; liaison and collaboration with public health partners.

#### **Liaison and teamwork:**

- Represent the OHTN at the request of the Senior Lead, Epidemiology & Surveillance and/or the Director, Data & Applied Science Impact on epidemiologic research projects, including with internal and external stakeholders.
- Coordinate and facilitate the Ontario HIV Epidemiology and Surveillance Initiative (OHESI) Technical Working Group.
- Provide mentorship to and supervision of trainees and junior Epidemiologists.
- Work with the OHTN Cohort Study (OCS) data on analyses in support of the OHESI.
- Transparency regarding activities with full documentation accessible to other team-members as needed, for sustainability.
- Prepare information, discussion, and decision notes and any other requested background information for the OHESI.

#### **Epidemiologic skills:**

- Critically approach problems to prepare appropriate epidemiologic/statistical analysis plans, implement them, and interpret findings.
- Analyze data using a multi-layered understanding of epidemiology, public health, health care, and determinants of health.
- Seek to continuously improve data systems and methodologic approaches, in order to improve quality of data and outputs.

### **Knowledge translation:**

- Ensure timely and effective communication and meeting agreed-on deliverables and deadlines.
- Develop knowledge translation products in a variety of formats including fact sheets, website content, technical reports, manuscripts, briefing notes, that are suitable to a variety of key stakeholders.
- Synthesize and summarize information for effective presentations, and engages in discussion about findings, with key stakeholders (including Community AIDS Service Organizations, and public health).
- Circulate drafts to OHESI partners and stakeholders for feedback and responds appropriately.

### **Research:**

- Conduct literature reviews necessary to inform analysis plans, prepare knowledge translation products, and to develop research proposals.
- Apply appropriate epidemiologic research methods to design and implement research studies (including writing funding proposals, developing research protocols).
- Communicate, support, and collaborate with multidisciplinary and community-based researchers conducting epidemiologic research in Ontario.

## **ABOUT YOU**

- Graduate degree at the Master's level or higher in epidemiology, public health, or a related field
- Knowledgeable in the design, implementation and conduct of epidemiologic research studies and their interpretation
- Strong communication skills (written and oral)
- Experience with Microsoft Office suite
- Knowledge of concepts and procedures related to safeguarding privacy of health information
- Demonstrated skills in epidemiologic and statistical analysis methods and use of appropriate software (e.g., R, SAS, SPSS)

## **HOW TO APPLY**

If you are interested in this position, please submit your application via e-mail to [careers@ohsn.on.ca](mailto:careers@ohsn.on.ca)

- Please use the "Epidemiologist" as the subject line
- Your cover letter and resume should be attached as a single PDF file and named "Full Name – Epidemiologist"

**APPLICATION DEADLINE:      FRIDAY, SEPTEMBER 30<sup>TH</sup>, 2022**

We would like to thank all applicants in advance for their interest in the OHTN, but only candidates receiving serious consideration will be contacted. No phone calls or agencies please.

*The OHTN is committed to employment equity and to the greater involvement and meaningful engagement of people living with HIV/AIDS ([GIPA/MIPA](#)) in all that we do. We encourage applications from persons living with HIV/AIDS and people with culturally diverse backgrounds to join our team.*

*We are also committed to fostering inclusion and accessibility in all areas of our work. If you require accommodation during the hiring process, we will work with you to meet your needs.*
